

## VETERINARIAN

<b>RESOURCE CATEGORY</b>	Animal Emergency Response
<b>RESOURCE KIND</b>	Personnel
<b>OVERALL FUNCTION</b>	<p>The Veterinarian administers medical care to ill or injured animals in a post-disaster environment. Veterinary services include triaging animals, identifying diseases and abnormal conditions, performing clinical examinations, and performing surgery when necessary. During animal disease events, the Veterinarian investigates cases of animal disease, diagnoses diseases, and maintains the health of animal populations or herds. The Veterinarian treats animals in one or more of the following competency areas:</p> <ol style="list-style-type: none"> <li>1. Companion animals, including pets, service animals, and assistance animals</li> <li>2. Livestock, including food or fiber animals and domesticated equine species</li> <li>3. Wildlife animals, captive wildlife, and zoo animals</li> <li>4. Laboratory animals</li> </ol>
<b>COMPOSITION AND ORDERING SPECIFICATIONS</b>	<ol style="list-style-type: none"> <li>1. This position can be ordered as a single resource or in conjunction with a NIMS typed team (Veterinary Medical Team).</li> <li>2. Discuss logistics for deploying this position, such as security, lodging, transportation, and meals, prior to deployment</li> <li>3. This position typically works 12 hours per shift, is self-sustainable for 72 hours, and is deployable for up to 14 days</li> <li>4. For Type 1 and Type 2, requestor specifies competency areas necessary based on the animal population the position will serve</li> <li>5. For Type 1, requestor specifies specialty areas necessary based on incident requirements</li> </ol>

Each type of resource builds on the qualifications of the type below it. For example, Type 1 qualifications include the qualifications in Type 2, plus an increase in capability. Type 1 is the highest qualification level.

COMPONENT	TYPE 1	TYPE 2	NOTES
