

## BUILDING CODE SPECIALIST

RESOURCE CATEGORY	Hazard Mitigation
RESOURCE KIND	Personnel
OVERALL FUNCTION	A Building Code Specialist provides a community with technical assistance in building inspections, building codes and building safety
COMPOSITION AND ORDERING SPECIFICATIONS	1. This position can be ordered as a single resource or in conjunction with a National Incident Management System (NIMS) typed team (Hazard Mitigation Operations Team) 2. Discuss logistics for this position, such as working conditions, length of deployment, security, lodging, transportation and meals, prior to deployment

Each type of resource builds on the qualifications of the type below it. For example, Type 1 qualifications include the qualifications in Type 2, plus an increase in capability. Type 1 is the highest qualification level.

Position Qualification for Operational Coordination  
Hazard Mitigation

COMPONENT	TYPE 1	TYPE 2	NOTES
<b>DESCRIPTION</b>	<p>The Type 1 Building Code Specialist assists in performing supervisory and administrative duties for planning and coordinating the operations of the building department to maximize building safety. Primary responsibilities include consulting for complex technical duties related to the hazard mitigation mission, including:</p> <ol style="list-style-type: none"> <li>1.
