

## GEOLOGICAL SURVEY SUPPORT SPECIALIST

<b>RESOURCE CATEGORY</b>	Damage Assessment
<b>RESOURCE KIND</b>	Personnel
<b>OVERALL FUNCTION</b>	The Geological Survey Support Specialist provides technical geological expertise during emergencies by augmenting and supporting the state geological survey office in an Emergency Operations Center (EOC), an Incident Command Post (ICP), state geological survey headquarters/office, a technical information clearinghouse, or a comparable operations post
<b>COMPOSITION AND ORDERING SPECIFICATIONS</b>	<ol style="list-style-type: none"> <li>1. This position can be ordered as a single resource or in conjunction with a NIMS typed team (Geology Field Reconnaissance Team).</li> <li>2. Discuss logistics for deploying this position, such as working conditions, length of deployment, security, lodging, transportation, and meals, prior to deployment</li> </ol>

Each type of resource builds on the qualifications of the type below it. For example, Type 1 qualifications include the qualifications in Type 2, plus an increase in capability. Type 1 is the highest qualification level.

COMPONENT	SINGLE TYPE	NOTES
<b>DESCRIPTION</b>	<p>The Geological Survey Support Specialist:</p> <ol style="list-style-type: none"> <li>1. Helps analyze geological data and develop decision-making documents, tools, and reports to support the requestor's public safety-related emergency response and recovery efforts</li> <li>2. Helps compile and analyze field geological data to support emergency response and recovery decisions</li> </ol>	Not Specified
<b>EDUCATION</b>	Bachelor's degree in geology, seismology, hydrology, geophysics, engineering geology, geotechnical engineering, or other discipline related to earth science	Not Specified
<b>TRAINING</b>	<p>Completion of the following:</p> <ol style="list-style-type: none"> <li>1. IS-100: Introduction to the Incident Command System, ICS-100</li> <li>2. IS-200: Basic Incident Command System for Initial Response, ICS-200</li> <li>3. IS-700: National Incident Management System, An Introduction</li> <li>4. IS-800: National Response Framework, An Introduction</li> </ol>	Not Specified
<b>EXPERIENCE</b>	<p>Knowledge, Skills, and Abilities:</p> <ol style="list-style-type: none"> <li>1. Knowledge of geo-hazard principles</li> <li>2. Ability to use word processing, spreadsheet, and simple graphics programs</li> <li>3. Familiarity with Geographic Information Systems (GIS)</li> </ol> <p>Experience:</p> <ol style="list-style-type: none"> <li>1. Two years of experience in geological/geotechnical assessment</li> <li>2. Experience with collecting, analyzing, and creating geo-hazard data</li> </ol>	Not Specified
<b>PHYSICAL/MEDICAL FITNESS</b>	Light	NIMS Guideline for the National Qualification System (NQS) defines physical / medical fitness levels for NIMS positions.
<b>CURRENCY</b>	Functions in this position during an operational incident, planned event, exercise, drill, or simulation at least once every five years	Not Specified

Position Qualification for Risk Management for Protection Programs and Activities  
Damage Assessment

COMPONENT	SINGLE TYPE	NOTES
PROFESSIONAL AND TECHNICAL LICENSES AND CERTIFICATIONS	Not Specified	Not Specified

## NOTES

---

1. Nationally typed resources represent the minimum criteria for the associated component.
