

## AEROMEDICAL TRANSPORT PARAMEDIC

<b>RESOURCE CATEGORY</b>	Emergency Medical Services
<b>RESOURCE KIND</b>	Personnel
<b>OVERALL FUNCTION</b>	The Aeromedical Transport Paramedic assesses the nature and extent of illness and injury to establish and prioritize care for safe air transport of the critical patient to the appropriate facility
<b>COMPOSITION AND ORDERING SPECIFICATIONS</b>	<ol style="list-style-type: none"> <li>1. This position can be ordered as a single resource or in conjunction with a NIMS typed team (see note below).</li> <li>2. This resource can be ordered in conjunction with other NIMS typed teams, including: Air Ambulance Fixed-Wing (Critical Care Transport), Air Ambulance Fixed-Wing (Non-Critical Care Transport), Air Ambulance Rotary-Wing (Critical Care Transport) or Air Ambulance Rotary-Wing (Non-Critical Care Transport)</li> <li>3. Discuss logistics for deploying this position, such as security, lodging, transportation, and meals, prior to deployment</li> <li>4. This position typically works 12 hours per shift, is self-sustainable for 72 hours, and is deployable for up to 14 days</li> <li>5. This position deploys with all necessary PPE, including flight and medical gear, based on the mission assignment</li> <li>6. Requestor should specify specialties necessary such as heart-lung bypass support, ventricular assist devices, management of arterial lines/pulmonary artery catheters, central venous monitoring, transfusion and volume expansion, vasopressors, extracorporeal membrane oxygenation, fetal monitoring, ventilator</li> </ol>

Each type of resource builds on the qualifications of the type below it. For example, Type 1 qualifications include the qualifications in Type 2, plus an increase in capability. Type 1 is the highest qualification level.

COMPONENT	TYPE 1	TYPE 2	NOTES
<b>DESCRIPTION</b>	Same as Type 2, PLUS: Provides a high-acuity patient with unique, specialized care during transport, such as: <ol style="list-style-type: none"> <li>1. Heart-lung bypass support</li> <li>2. Ventricular assist devices</li> <li>3. Management of arterial lines/pulmonary artery catheters</li> <li>4. Central venous monitoring</li> <li>5. Transfusion and volume expansion</li> <li>6. Vasopressors</li> <li>7. Extracorporeal membrane oxygenation</li> <li>8. Fetal monitoring</li> <li>9. Ventilator management</li> <li>10. High-risk obstetrics</li> </ol>	The Aeromedical Transport Paramedic: <ol style="list-style-type: none"> <li>1. Provides pre-hospital advanced life support (ALS) care from initial pick up to destination, such as: Triage; giving oxygen; and cardiac defibrillation</li> <li>2. Assists in pre-mission liftoff checklist and assists pilot as necessary, such as radio, navigational, and visual observation activities</li> </ol>	Not Specified
<b>EDUCATION</b>	Same as Type 2, PLUS: Training, certification or daily practice in critical care, OR specialty certification commensurate with the mission	<ol style="list-style-type: none"> <li>1. Graduate of a nationally accredited paramedic program</li> <li>2. Graduate of aeromedical technician certification course</li> </ol>	Exceptions apply for individuals who graduated from a paramedic program prior to January 1, 2013 (the date the National Emergency Medical Services (EMS) program accreditation became a requirement for National registry certification).

Position Qualification for Public Health, Healthcare, and Emergency Medical Services  
Emergency Medical Services

COMPONENT	TYPE 1	TYPE 2	NOTES
<b>TRAINING</b>	Same as Type 2	Completion of the following: 1. IS-100: Introduction to the Incident Command System ICS-100 2. IS-200: Incident Command System for Single Resources and Initial Action Incidents 3. IS-700: National Incident Management System, An Introduction 4. IS-800: National Response Framework, An Introduction 5. Air Medical Resource Management or equivalent 6. Training in accordance with Occupational Safety and Health Administration (OSHA) 29 Code of Federal Regulations (CFR) Part 1910.120: Hazardous Materials Awareness 7. Training in accordance with OSHA 29 CFR Part 1910.134: Respiratory Protection 8. Training in accordance with OSHA 29 CFR Part 1910.1030: Bloodborne Pathogens	Identified equivalent trainings should meet or exceed course learning objectives.
<b>EXPERIENCE</b>	Same as Type 2, PLUS: Two years of critical care paramedic experience	Knowledge, Skills, and Abilities: 1. Knowledge of state and local scope of practice parameters and skill sets 2. Knowledge of the management and care of patients involved in a Mass Casualty Incident (MCI) 3. Knowledge of crew resource management  Experience: One year of flight paramedic experience	Not Specified
<b>PHYSICAL/MEDICAL FITNESS</b>	Same as Type 2	1. Performs duties under moderate circumstances characterized by working consecutive 12-hour days under physical and emotional stress for sustained periods of time 2. Maintains immunizations in accordance with the U.S. Department of Health and Human Services Centers for Disease Control and Prevention's immunization recommendations for emergency responders 3. Ability to work wearing appropriate personal protective equipment (PPE)	This position may work near moving mechanical parts of an aircraft and face exposure to airborne particles including fumes, chemical hazards, and vibrations/turbulence. PPE is mission-specific and will depend on the patient and patient condition.

Position Qualification for Public Health, Healthcare, and Emergency Medical Services  
Emergency Medical Services

COMPONENT	TYPE 1	TYPE 2	NOTES
<b>CURRENCY</b>	Same as Type 2	1. Functions in this position during an operational incident, planned event, exercise, drill, or simulation at least once every two years 2. Active member of an EMS-providing entity, organization, or agency 3. Active participation with an air medical transport service  4. Immunizations up-to-date and commensurate with mission assignment 5. Background checks as applicable law permits or requires	Provider must carry out and use any background checks as applicable law specifies. This may include a background check completed within past 12 months; sex-offender registry check; and a local, state, and national criminal history.
<b>PROFESSIONAL AND TECHNICAL LICENSES AND CERTIFICATIONS</b>	Active Critical Care Paramedic certification, or equivalent	1. State, District of Columbia, or US territory-granted active status of legal authority to function as a Paramedic without restriction 2. Flight Paramedic Certification (FP-C)	Critical Care certifications are not available in every state.

## NOTES

Nationally typed resources represent the minimum criteria for the associated category.
