

Position Qualification for Mass Search and Rescue Operations
Search and Rescue

STRUCTURAL COLLAPSE RESCUE TEAM LEADER

RESOURCE CATEGORY	Search and Rescue
RESOURCE KIND	Personnel
OVERALL FUNCTION	The Structural Collapse Rescue Team Leader conducts rescue operations in collapsed structures and debris fields resulting from natural or human causes and provides general team leadership and supervision.
COMPOSITION AND ORDERING SPECIFICATIONS	<ol style="list-style-type: none"> 1. This position can be ordered as a single resource or in conjunction with a NIMS typed team (Structural Collapse Rescue Team). 2. 1. This position can be ordered as a single resource or in conjunction with a National Incident Management System (NIMS) typed team (Structural Collapse Rescue Team and Urban Search and Rescue Task Force). 3. 3. Operations in search and rescue (SAR) environments may be immediately dangerous to life and health (IDLH), per ASTM International (ASTM) F2890: Standard Guide for Hazard Awareness for Search and Rescue Personnel; requestor should consider the need for additional capabilities or endorsements.

Each type of resource builds on the qualifications of the type below it. For example, Type 1 qualifications include the qualifications in Type 2, plus an increase in capability. Type 1 is the highest qualification level.

COMPONENT	SINGLE TYPE	NOTES
DESCRIPTION	<p>The Structural Collapse Rescue Team Leader:</p> <ol style="list-style-type: none"> 1. Provides general leadership, direct supervision and oversight for the wellness and safety of team members and other single resources 2. Conducts rescue operations during structural collapse incidents, including identifying hazards in a collapsed structure defined as light, medium or heavy construction, in keeping with United Nations (UN) International Search and Rescue Advisory Group (INSARAG) urban search and rescue (US&R) guidance 3. Performs rescue operations involving lifting, moving, breaching, breaking and shoring of light, medium and heavy frame construction debris 4. Requests rescue, evacuation and recovery resources as necessary 5. Performs emergency medical care, including Basic Life Support (BLS) 	Not Specified
EDUCATION	Not Specified	Not Specified
TRAINING	<p>All training identified for the NIMS Structural Collapse Rescue Technician, PLUS: Completion of the following:</p> <ol style="list-style-type: none"> 1. ICS-300: Intermediate Incident Command System for Expanding Incidents 2. IS-703: National Incident Management System Resource Management 3. Technician-level training in keeping with National Fire Protection Association (NFPA) 1670: Standard on Operations and Training for Technical Search and Rescue Incidents in the following areas: <ol style="list-style-type: none"> a. General requirements b. Rope rescue c. Structural collapse SAR d. Confined space rescue (permit-required, non-mine and non-cave environments) e. Machinery rescue f. Trench and excavation SAR 	Not Specified

COMPONENT	SINGLE TYPE	NOTES
<p>EXPERIENCE</p>	<p>Knowledge, Skills and Abilities:</p> <ol style="list-style-type: none"> 1. Knowledge of structural collapse rescue and associated hazards, including recognition of the various types of building/structural collapses and their impacts 2. Understanding of rescue procedures in building/structural collapse environments during day and night operations 3. Knowledge of scene management and dynamic risk assessment 4. Knowledge of relevant building/structural collapses, confined space rescue techniques and rope rescue techniques 5. Ability to identify hazards, including potentially hazardous operating environments 6. Ability to carry out the following: <ol style="list-style-type: none"> a. Technical rescue b. Rope rescue c. Structural collapse SAR d. Confined space SAR e. Machinery rescue f. Trench and excavation SAR <p>Experience: Demonstrated experience as a structural collapse technician</p>	<p>Not Specified</p> <ol style="list-style-type: none"> 1. NFPA 1006: Standard for Technical Rescue Personnel Professional Qualifications and NFPA 1670: Standard on Operations and Training for Technical Search and Rescue Incidents address these requirements.
<p>PHYSICAL/MEDICAL FITNESS</p>	<ol style="list-style-type: none"> 1. Arduous 2. Meets minimum physical fitness and swimming standards, in accordance with the AHJ's job-related physical ability test (JRPAT) 3. Maintains AHJ-determined physical fitness standards suitable for the environment and typing; NFPA 1582: Standard on Comprehensive Occupational Medical Program for Fire Departments, or equivalent, meets or exceeds this physical fitness standard 4. Maintains immunizations in accordance with the U.S. Department of Health and Human Services Centers for Disease Control's (CDC) immunization recommendations 5. Is able to work while wearing appropriate Personal Protective Equipment (PPE) 	<ol style="list-style-type: none"> 1. The NIMS Guideline for the National Qualification System (NQS) defines physical/medical fitness levels for NIMS positions. 2. PPE is mission specific and may vary by work environment; it includes protective footwear, protective clothing for skin exposure, eye and ear protection, respirators, gloves and masks.
<p>CURRENCY</p>	<ol style="list-style-type: none"> 1. Annual refresher of rescue skills and abilities in structural collapse environments 2. Functions in this position during an operational incident, planned event, exercise, drill or simulation at least once every three years 3. Background checks as applicable law permits or requires 4. Keeps immunizations up to date and commensurate with mission assignment 	<p>Provider must carry out and use any background checks as applicable law specifies. This may include a background check completed within the past 12 months; a sex-offender registry check; and a local, state and national driving and criminal history.</p>
