

CAVE SEARCH AND RESCUE TECHNICIAN

TYPE	TYPE 1	TYPE 2
DESCRIPTION	Same as Type 2, PLUS: Performs search, rescue, and recovery in caves with swiftwater or other highly complex rigging requirements	Same as Type 3, PLUS: Performs search, rescue, and recovery operations in caves that feature segments of tight passage, long or complex vertical challenges, and single rope techniques
CATEGORY	CRITERIA	CRITERIA
EDUCATION	Same as Type 2 NOTES: Not Specified	Same as Type 3
TRAINING	Same as Type 2, PLUS: AHJ verification of completion of a cave SAR training program that results in the following position-specific awareness and capabilities: 1. Address complex rigging problems in vertical environments 2. Perform rescues with minimal equipment NOTES: 1. The AHJ may require additional training, capabilities, and endorsements for unique working environments 2. For Type 3, National Cave Rescue Commission (NCRC) Level 1 is an example of a Cave SAR training program 3. For Type 2, National Cave Rescue Commission (NCRC) Level 2 is an example of a Cave SAR training program 4. For Type 1, NCRC Level 3 is an example of a Cave SAR training program 5. NFPA 1670, Standard on Operations and Training for Technical Search and Rescue Incidents, 2017 (Chapter 13 Cave Search and Rescue) discusses Cave SAR training.	Same as Type 3, PLUS: AHJ verification of completion of a cave SAR training program that results in the following position-specific awareness and capabilities: 1. Steep angle evacuation 2. High angle evacuation 3. Techniques that facilitate patient movement with limited personnel 4. Ascending and descending on rope
EXPERIENCE	Same as Type 2 NOTES: The National Fire Protection Association (NFPA) 1006: Standard for Technical Rescuer Professional Qualifications and NFPA (specifically Chapter 13 Cave Search and Rescue) (2017) and 1670: Standard on Operations and Training for Technical Search and Rescue Incidents (specifically Chapter 13 Cave Search and Rescue) (2017) address knowledge, skills, and abilities standards that may apply to Cave SAR.	Same as Type 3
PHYSICAL/MEDICAL FITNESS	Same as Type 2, PLUS: 1. Meets minimum physical fitness and swimming standards, in accordance with the AHJ's Job Related Physical Ability Test (JRPAT) 2. Physically capable of performing search, rescue, and recovery in cave swiftwater while utilizing appropriate PPE NOTES: Not Specified	Same as Type 3, PLUS: Physically capable of performing search, rescue, and recovery in long and short vertical caves
CURRENCY	Same as Type 2 NOTES: Provider must carry out and use any background checks as applicable law specifies. This may include a background check completed within past 12 months; sex-offender registry check; and a local, state, and a local, state, and national criminal history.	Same as Type 3

Superseded

TYPE	TYPE 1	TYPE 2
PROFESSIONAL AND TECHNICAL LICENSES AND CERTIFICATIONS	Same as Type 2	Same as Type 3
	NOTES: The AHJ determines the emergency medical certifications the technician needs to meet the minimum criteria, which can include first aid, cardiopulmonary resuscitation (CPR), and BLS.	

Superseded

TYPE	TYPE 3	NO TYPE 4
DESCRIPTION	<p>The Cave Search and Rescue (SAR) Technician:</p> <ol style="list-style-type: none">1. Performs search, rescue, and recovery in caves featuring primarily horizontal cave passage, but may encounter slopes or vertical segments2. Performs rescue operations in vertical cave segments under guidance of Type 2 (or higher) Cave SAR Technician3. Provides first aid or other medical care at level appropriate with rescuer certifications and team protocols4. Reports to a Cave SAR Team Leader, if applicable5. Operates within the Incident Command System (ICS) in and entry level position within a Cave SAR Team6. Operates in environments with and without infrastructure7. Provides safety of self and team members; medical care of self, team members, and patients; and simple decontamination of self, team members and equipment	Not Applicable
CATEGORY	CRITERIA	CRITERIA
EDUCATION	Not Specified	Not Applicable
NOTES: Not Specified		

Superseded

TYPE	TYPE 3	NO TYPE 4
TRAINING	Authority Having Jurisdiction (AHJ) verification of completion of a cave SAR training program that results in the following position-specific awareness and capabilities: <ol style="list-style-type: none"> 1. Awareness of hazards encountered in caves 2. Ability to move through horizontal and low-complexity vertical caves efficiently, effectively and safely 3. Ability to assist with horizontal or slope evacuation 4. Ability to move competently in vertical environment using single rope techniques (SRT) for personal movement, both down and up, including ability to down climb on fixed rope and perform change-overs from climb to descend and descend to climb 5. Use, care, inspection and maintenance of all related personal protective equipment (PPE), tools, devices, and equipment specific to this position and sub-specialties 6. General travel, exploration, route finding, marking, and mapping 7. Use of surface and underground communications equipment, and establishment of underground communications systems 8. Incident initial response, including Go/No-go processes 9. Personnel accountability and tracking systems for surface and entry and exit, including use of entry and exit checklists 10. Underground search techniques 11. Patient medical care and evacuation 12. Self-help and self-rescue 13. Response to team members in a hazard zone AHJ verification of completion of training specific to technical rope rescue for this resulting in the following knowledge and capabilities: <ol style="list-style-type: none"> 1. Rope rescue equipment, including characteristics of rope and webbing 2. Knots 3. Anchors 4. Belays, progress capture systems, and rope assist systems 5. Short distance ascending and descending on rope, including ability to perform change-overs 6. Patient packaging and litter handling 7. Rigging and operation of raising and lowering systems 8. Low-angle/slope rescue 9. Improvised rescue techniques 	Not Applicable
	NOTES: 1. The AHJ may require additional training, capabilities, and endorsements for unique working environments 2. For Type 3, National Cave Rescue Commission (NCRC) Level 1 is an example of a Cave SAR training program 3. For Type 2, National Cave Rescue Commission (NCRC) Level 2 is an example of a Cave SAR training program 4. For Type 1, NCRC Level 3 is an example of a Cave SAR training program 5. NFPA 1670, Standard on Operations and Training for Technical Search and Rescue Incidents, 2017 (Chapter 13 Cave Search and Rescue) discusses Cave SAR training.	

Superseded

TYPE	TYPE 3	NO TYPE 4
EXPERIENCE	<p>Knowledge, Skills and Abilities:</p> <ol style="list-style-type: none"> 1. Knowledge of cave rescue and associated hazards 2. Knowledge of use, care, inspection and maintenance of all PPE, tools, devices and equipment specific to this position 3. Ability to carry out technical rescue operations; rope rescue; and Cave SAR <p>AHJ-validated experience demonstrating the following:</p> <ol style="list-style-type: none"> 1. Scene management and dynamic assessment of risk 2. Cave SAR techniques 3. Identification of hazards, including potential operating environments 4. Completion of a Cave SAR Technician Position Task Book (PTB) or equivalent AHJ documentation 	Not Applicable
<p>NOTES: The National Fire Protection Association (NFPA) 1006: Standard for Technical Rescuer Professional Qualifications and NFPA (specifically Chapter 13 Cave Search and Rescue) (2017) and 1670: Standard on Operations and Training for Technical Search and Rescue Incidents (specifically Chapter 13 Cave Search and Rescue) (2017) address knowledge, skills, and abilities standards that may apply to Cave SAR.</p>		
PHYSICAL/MEDICAL FITNESS	<ol style="list-style-type: none"> 1. Performs duties under arduous circumstances, characterized by working consecutive 12-hour days under physical and emotional stress for sustained periods of time 2. Meets minimum physical fitness standards in accordance with the AHJ's Job Related Physical Ability Test (JRPAT) 3. Maintains immunizations in accordance with the U.S. Department of Health and Human Services Centers for Disease Control and Prevention's recommended adult immunization schedule for the United States of America 	Not Applicable
<p>NOTES: Not Specified</p>		
CURRENCY	<ol style="list-style-type: none"> 1. Annual refresher of related SAR skills and abilities in cave environments 2. Functions in this position during an operational incident, planned event, participation in exercise, drill, or simulation per AHJ requirements 3. Background checks as applicable law permits or requires 	Not Applicable
<p>NOTES: Provider must carry out and use any background checks as applicable law specifies. This may include a background check completed within past 12 months; sex-offender registry check; and a local, state, and a local, state, and national criminal history.</p>		
PROFESSIONAL AND TECHNICAL LICENSES AND CERTIFICATIONS	<ol style="list-style-type: none"> 1. Certification or completion of cave SAR training that relates to the job standards 2. AHJ-required BLS-level medical care certification or recertification 	Not Applicable
<p>NOTES: The AHJ determines the emergency medical certifications the technician needs to meet the minimum criteria, which can include first aid, cardiopulmonary resuscitation (CPR), and BLS.</p>

ORDERING SPECIFICATIONS OR DESIGNATIONS

1. (X) Can be ordered as an individual asset
2. (X) Can be ordered in conjunction with a NIMS typed team (Cave Search and Rescue Team)
3. () Can be ordered in conjunction with a NIMS typed unit
4. Discuss logistics for deploying this position, such as security, lodging, transportation, and meals, prior to deployment
5. This position typically works 12 hours per shift, is self-sustainable for 72 hours, and is deployable for up to 14 days
6. The requestor should consider the need for additional recognized capability or endorsement, such as animal rescue.
