

## MINE SEARCH AND RESCUE TEAM LEADER

RESOURCE CATEGORY	Search and Rescue
RESOURCE KIND	Personnel
OVERALL FUNCTION	The Mine Search and Rescue (SAR) Team Leader leads a Mine SAR team performing search, rescue, and recovery in various mine environments
COMPOSITION AND ORDERING SPECIFICATIONS	<ol style="list-style-type: none"><li>1. This position can be ordered as a single resource or in conjunction with a NIMS typed team (Mine Search and Rescue Team).</li><li>2. Discuss logistics for deploying this position, such as working conditions, length of deployment, security, lodging, transportation, and meals, prior to deployment</li><li>3. Appropriate endorsements may be necessary for SAR operations for specific types of mines as defined by MSHA (such as animal rescue, submerged environments)</li></ol>

Each type of resource builds on the qualifications of the type below it. For example, Type 1 qualifications include the qualifications in Type 2, plus an increase in capability. Type 1 is the highest qualification level.
