### Description
The Foam Tender - Firefighting acts as a mobile foam source and suppresses fires that are resistant to traditional water-based operations.

### Resource Category
Fire/Hazardous Materials

### Resource Kind
Equipment

### Overall Function
The Foam Tender - Firefighting:
1. Supplies foam for fires that are resistant to traditional water-based operations
2. Helps suppress flammable liquid fires, such as gasoline or jet fuel

### Composition and Ordering Specifications
1. Discuss logistics for this equipment, such as security, transportation, maintenance, and fuel, prior to deployment
2. Requestor specifies specialized equipment when ordering, if necessary
3. Requestor specifies if Class A or Class B foam is necessary based on incident needs

Each type of resource builds on the qualifications of the type below it. For example, Type 1 qualifications include the qualifications in Type 2, plus an increase in capability. Type 1 is the highest qualification level.
