

## PORTABLE PUMP

<b>DESCRIPTION</b>	The Portable Pump is available in several volume and pressure ratings, which can be taken to a water source and used for fire suppression, rescue, de-watering, or other specialized functions
<b>RESOURCE CATEGORY</b>	Fire/Hazardous Materials
<b>RESOURCE KIND</b>	Equipment
<b>OVERALL FUNCTION</b>	The Portable Pump is used for fire suppression, rescue, de-watering, or other specialized functions
<b>COMPOSITION AND ORDERING SPECIFICATIONS</b>	<ol style="list-style-type: none"> <li>1. Discuss logistics for this equipment, such as security, transportation, maintenance and fuel, prior to deployment</li> <li>2. Requestor specifies if any specialized equipment is necessary based on incident needs</li> <li>3. Requestor specifies use for water removal or fire attack</li> <li>4. Requestor specifies the method for transporting the pump, intake and discharge hoses and appliances</li> <li>5. Requestor specifies hose or pipe diameter, length and connections</li> </ol>

Each type of resource builds on the qualifications of the type below it. For example, Type 1 qualifications include the qualifications in Type 2, plus an increase in capability. Type 1 is the highest qualification level.

COMPONENT	TYPE 1	TYPE 2	TYPE 3	NOTES
<b>EQUIPMENT PUMPING CAPACITY</b>	300 GPM	60 GPM	20 gallons per minute (GPM)	Not Specified
<b>EQUIPMENT PUMPING PRESSURE</b>	20 PSI	90 PSI	200 pounds per square inch (PSI)	Not Specified

## Resource Typing Definition for Fire Management and Suppression Fire/Hazardous Materials

### NOTES

Nationally typed resources represent the minimum criteria for the associated component and capability.
