

PEDESTRIAN POINT OF DISTRIBUTION TEAM

DESCRIPTION	A Pedestrian Point of Distribution (POD) Team establishes a location that disaster survivors can access on foot to obtain critical emergency supplies during and after an emergency. Pedestrian POD Teams service high-population-density areas, areas with damaged transportation infrastructure or areas where Drive-Through POD sites are impractical. Government agencies, nongovernmental organizations (NGO), private sector organizations and combinations of these groups can establish and operate these sites
RESOURCE CATEGORY	Mass Care Services
RESOURCE KIND	Team
OVERALL FUNCTION	<p>A Pedestrian POD Team:</p> <ol style="list-style-type: none"> 1. Establishes pedestrian distribution operations at a site, as specified by the Authority Having Jurisdiction (AHJ) 2. Works closely with the Distribution of Emergency Supplies (DES) Task Force to regulate the flow of supplies and to notify the public of locations and hours of operation 3. Distributes supplies in an orderly, efficient and safe manner 4. Maintains accurate records of items distributed 5. Restocks supplies at the site
COMPOSITION AND ORDERING SPECIFICATIONS	<ol style="list-style-type: none"> 1. Discuss logistics for deploying this team, such as working conditions, length of deployment, security, lodging, transportation and meals, prior to deployment 2. This team supports pre-disaster planning and post-disaster supply distribution to meet survivors' immediate needs 3. The number of pedestrian POD sites varies depending on the incident type, size, scale and duration 4. The condition of the transportation infrastructure may obstruct access to a POD site or affect resupply operations 5. A Pedestrian POD may operate for extended hours to give the public maximum access 6. The requestor determines the amount and type of security to prevent theft and provide traffic control

Each type of resource builds on the qualifications of the type below it. For example, Type 1 qualifications include the qualifications in Type 2, plus an increase in capability. Type 1 is the highest qualification level.

COMPONENT	TYPE 1	TYPE 2	NOTES
MINIMUM PERSONNEL PER TEAM	28	18	Not Specified
MANAGEMENT AND OVERSIGHT PERSONNEL PER TEAM	Same as Type 2, PLUS: 2 - NIMS Type 1 DES Team Leader	2 - National Incident Management System (NIMS) Type 2 DES Team Leader	Not Specified
SUPPORT PERSONNEL PER TEAM	Same as Type 2, PLUS: 1 - Forklift Operator 7 - NIMS Type 1 Mass Care Specialist	1 - Forklift Operator 15 - NIMS Type 1 Mass Care Specialist	<ol style="list-style-type: none"> 1. All forklift operators have training and certification in accordance with Occupational Safety and Health Administration (OSHA) requirements 2. Forklift operators also have AHJ authorization to operate assigned equipment 3. The forklift operator is not a NIMS typed position

Resource Typing Definition for Mass Care Services Mass Care Services

COMPONENT	TYPE 1	TYPE 2	NOTES
SITE SIZE PER TEAM	125' x 150' to accommodate four pedestrian lanes and six loading points	75' x 150' to accommodate two pedestrian lanes and three loading points	Not Specified
THROUGHPUT PER TEAM	841 to 1,680	1 to 840	Throughput is the estimated number of people the POD Team serves per hour. The number of people served varies based on available personnel, number of load stations and item packaging
OPERATIONS EQUIPMENT PER TEAM	Same as Type 2	Equipment includes the following: 1. Forklifts 2. Pallet jacks 3. Hand trucks 4. Lighting 5. Large trash containers 6. Traffic control devices 7. Portable toilets 8. Tents or canopies	The DES Team Leader orders equipment to supplement what the requestor provides
PERSONAL PROTECTIVE EQUIPMENT (PPE) EQUIPMENT PER TEAM MEMBER	Not Specified	Not Specified	PPE is mission specific and may vary by working environment; it includes protective footwear, protective clothing for skin exposure, eye and ear protection, respirators, gloves and masks
ELECTRONICS AND COMMUNICATIONS EQUIPMENT PER TEAM	Same as Type 2	1. Cellular Phone (one per team member) 2. Laptop computer (one per team member) 3. Handheld two-way radio (one per team member) 4. 1 - GPS unit 5. 1 - Handheld public address horn or system 6. 1 - National Oceanic and Atmospheric Administration (NOAA) weather alert radio 7. 1 - Directional sign	1. The DES Team Leader communicates depletion rates and operational changes to the Logistics Staging Area (LSA), the DES Task Force and the Logistics Chief 2. The AHJ determines the number of directional signs after completing a risk assessment 3. Select and program two-way radios based on AHJ requirements 4. Consider alternate forms of communication, such as satellite phones, based on the mission assignment and team needs

NOTES

Nationally typed resources represent the minimum criteria for the associated component and capability.
