

ANIMAL AND AGRICULTURE DAMAGE ASSESSMENT TEAM

DESCRIPTION	The Animal and Agriculture Damage Assessment Team performs initial and ongoing situational assessments and needs assessments to determine the types of emergency relief necessary in an incident involving animal and agriculture issues. This team's work begins in the early, critical stages of a disaster and continues throughout the incident. Depending on the incident and hazards, the team may assess community veterinary infrastructure, animal shelters, animal control facilities, feed stores, retail services, animal exhibitors (such as zoos), agricultural producers (farms, ranches, dairies, and so on), processors, market facilities, and agricultural support industries (agrichemical, feed mills, and so on). The team may also assess animal evacuation and shelter needs, stray animals, and animal carcass issues.
RESOURCE CATEGORY	Animal Emergency Response
RESOURCE KIND	Team
OVERALL FUNCTION	<p>This team:</p> <ol style="list-style-type: none"> 1. Photographs and records disaster site damage 2. Investigates locations where damage exists 3. Analyzes the significance of affected animal and agriculture infrastructures, crops, and animals 4. Estimates the extent of damages 5. Identifies potential cascading effects of animal and agricultural issues 6. Recommends initial priorities for response and recovery
COMPOSITION AND ORDERING SPECIFICATIONS	<ol style="list-style-type: none"> 1. Discuss logistics for this team, such as security, lodging, transportation, and meals, prior to deployment. 2. The team typically works 12 hours per shift, is self-sustainable for 72 hours, and is deployable up to 14 days. 3. Requestor specifies specialty areas necessary, such as animal health professionals, agronomists, engineering specialists, logisticians, environmental experts, animal sheltering experts, communications specialists, and others

Each type of resource builds on the qualifications of the type below it. For example, Type 1 qualifications include the qualifications in Type 2, plus an increase in capability. Type 1 is the highest qualification level.

COMPONENT	SINGLE TYPE	NOTES
EQUIPMENT PER TEAM ASSESSMENT	<ol style="list-style-type: none"> 1. Laptop computer(s) 2. Digital camera(s) 3. GPS capabilities 4. Office supplies 5. Measuring devices 6. Appropriate software 7. Cutting/trimming device(s) 8. Marking paint or other marking materials 9. Traffic control device (or safety signage) 10. Cleaning and disinfecting supplies 11. Other equipment and supplies as necessary, based on ordering specification 	<ol style="list-style-type: none"> 1. Appropriate software includes word processing, spreadsheet, Geographic Information Systems, and database management programs. 2. Measuring devices include tape measures (25' to 100') and measuring wheels. 3. Cleaning and disinfecting supplies are necessary when moving from one agricultural area to another. 4. Requestor provides Authority Having Jurisdiction (AHJ)-approved damage assessment forms for the team to complete.
EQUIPMENT PER TEAM COMMUNICATIONS	<ol style="list-style-type: none"> 3 - Two-way portable radio 3 - Cell phone 	Not Specified
